RESEARCH FOCUS

Computational social science of science. I use large-scale bibliometric, citation, and social media data (Twitter & BlueSky) to study scientific careers, collaboration networks, knowledge diffusion, and the societal impact of research, with recent extensions to LLM-driven knowledge production. Methods: network science, text-as-data, large language models, statistical modelling.

EDUCATION

- **2016–2023** Ph.D. in Science of Science and Management of Science and Technology & Engineering, Dalian University of Technology, China.
- **2013–2016** M.M. in Knowledge Management, Liaoning Normal University, China.
- **2009–2013** B.M. in Electronic Commerce, Taiyuan University of Science and Technology, China.

PUBLICATIONS

Journal Articles

- Wang, Y., Zuccala, A., Hou, H., & Hu, Z. (2021). “To tweet or not to tweet?” A study of the use of Twitter by scholarly book publishers in social sciences and humanities. *Journal of Informetrics*, 15, 101170.
- Wang, Y., & Zuccala, A. (2021). Scholarly book publishers as publicity agents for SSH titles on Twitter. *Scientometrics*, 126, 4817–4840.

Peer-Reviewed Conference Proceedings

- Vasarhelyi, O., Herman, J., Kovacs, K. D., & Wang, Y. (2025). Evaluating gender bias in large language models in academic knowledge production. *Proceedings of the Fourth European Workshop on Algorithmic Fairness (EWAf)*, PMLR 294, 417–422.
- Wang, Y., Hou, H., & Zuccala, A. (2025). Book authors as self-promoters on X (Twitter) and their information dissemination networks. *Proceedings of ISSI 2025*, 2035–2042.
- Godoy, J. M., Wang, Y., & Cortés, J. D. (2025). National mobility and career performance of the scientific workforce in Colombia. *Proceedings of ISSI 2025*, 2251–2258.

Manuscripts in Preparation

- Wang, Y., Vászárhelyi, O., et al. *Even verified LLM-selected papers narrow scientific referencing toward already recognized work*. In preparation. (Nine LLMs, 800,000+ AI-generated literature reviews, 146,001 validated cited articles compared with matched human-cited articles.)
- Wang, Y., Hidalgo, C., et al. *Prestige and social bias in human- versus AI-generated literature reviews*. In preparation. (Synthetic reviews for 100,000 papers.)
- Wang, Y., & Wachs, J. *How authors’ research trajectories change before and after their first disruptive paper*. In preparation.

RESEARCH EXPERIENCE

Corvinus University of Budapest, Postdoctoral Research Fellow

2024–Present. Center for Collective Learning, Corvinus Institute for Advanced Studies, Corvinus University of Budapest. Initially funded through the EU Horizon Europe project LearnData (Grant Agreement No. 101086712), led by Prof. Orsolya Vásárhelyi. My research examines inequalities in scientific knowledge production, including human and LLM-based reference selection, the limitations of name-based gender inference, and co-authorship and social-media networks in science. Since 2026, I have expanded this work through collaborations within the Center for Collective Learning on research trajectories before and after authors' first disruptive papers with Prof. Johannes Wachs, and on prestige and social biases in AI-generated literature reviews with Prof. César A. Hidalgo.

Georgia Institute of Technology, Research Fellow

2023–2024. Racial Equity in Scientific Practices: Examinations of Careers and Topics (RE-SPECT) Fellowship. *Advisors:* Prof. Cassidy Sugimoto, Prof. Vincent Larivière, and Prof. Thema Monroe-White.

University of Copenhagen, Visiting PhD Researcher

2018–2020. Department of Communication, University of Copenhagen, Denmark. Two-year research visit funded by a Full Scholarship for Doctoral Studies Abroad from the China Scholarship Council. Conducted research on scholarly communication, altmetrics, and Twitter-based diffusion of academic books in the social sciences and humanities, which led to first-author publications in *Journal of Informetrics* and *Scientometrics*.

Host advisor: Dr. Alesia Zuccala, Associate Professor, Department of Communication, University of Copenhagen.

TEACHING AND MENTORING

Student Supervision

- **Akbota Saduakassova**, PhD student, Corvinus University of Budapest. *Global Academic Inequality and Mobility: Mapping Migration Patterns of Scholars, with Insights from Kazakhstan*.

Teaching Assistant

- **Scientific Research Writing** (graduate course), Dalian University of Technology, 2016–2018. Supported the instructor in writing assignments, peer-review exercises, and individual feedback to early-stage researchers.

INVITED TALKS AND CONFERENCE PRESENTATIONS

- **Oral presentation**, 30th International Conference on Science and Technology Indicators (STI 2026), University of Antwerp, Antwerp, Belgium, September 2026.
- **Oral presentation**, 20th International Conference on Scientometrics and Informetrics (ISSI 2025), Yerevan State University, Yerevan, Armenia, June 2025.
- **Invited talk**, Budapest Winter Workshop, Corvinus University of Budapest, Budapest, Hungary, February 2025.

PEER REVIEW AND ACADEMIC SERVICE

- Reviewer, *PLOS ONE*.
- Reviewer, *Journal of the Association for Information Science and Technology* (JASIST).

COMPUTING SKILLS

- **Programming:** Python (pandas, NumPy, networkx, scikit-learn, PyTorch, Hugging Face transformers), R (tidyverse, igraph), SQL.
- **Large Language Models:** OpenAI API, Hugging Face, prompt engineering, fine-tuning, retrieval-augmented generation, evaluation of LLM outputs against human baselines.
- **Machine Learning and NLP:** supervised and unsupervised learning, natural language processing, computational text analysis.
- **Network Science:** large-scale graph analysis, community detection, diffusion modelling.
- **Data Analysis:** quantitative methods, statistical modelling, multivariate analysis, data visualisation.
- **Research Methods:** bibliometric, altmetric, and scientometric analysis, text-as-data, social network analysis, spatial modelling.

DATA AND RESEARCH INFRASTRUCTURE

Full data access to all major scholarly and altmetric databases, providing a strong empirical foundation for large-scale science-of-science research:

- **OpenAlex** — open bibliographic graph (publications, authors, institutions, concepts).
- **Web of Science** — citation indices and journal metadata.
- **Scopus** — citation and author profiles.
- **Dimensions** — linked publications, grants, patents, clinical trials.
- **Altmetric** — social-media and policy-document mentions of academic outputs.

This infrastructure supports trajectory-level studies of scientific careers, collaboration and diffusion networks, and the linkage between research funding and societal impact.

SPOKEN LANGUAGES

- English: fluent (speaking, reading, writing).
- Chinese: native.

SELECTED GRANTS, FELLOWSHIPS, AND HONOURS

- Full Scholarship for Doctoral Studies Abroad (Denmark), China Scholarship Council, 2018–2020.
- “Best Student of the Institute of Science of Science and S&T Management”, Dalian University of Technology, 2018.

REFEREES

Dr. Orsolya Vásárhelyi. Associate Professor, Postdoctoral Supervisor. Center for Collective Learning, Corvinus University of Budapest. orsolya.vasarhelyi@uni-corvinus.hu

Dr. Johannes Wachs. Associate Professor, Director of the Center for Collective Learning (Corvinus node). Corvinus University of Budapest. johannes.wachs@uni-corvinus.hu

Prof. César A. Hidalgo. Founding Director of the Center for Collective Learning and ERA Chair, Corvinus University of Budapest; Director of the Center for Collective Learning and ANITI Chair, University of Toulouse; Honorary Professor, Alliance Manchester Business School, Uni-

versity of Manchester; Visiting Professor, Harvard School of Engineering and Applied Sciences.
